

YOUR OUTSOURCING PARTNER

Industrial Metalwork Structures

since 2007

You have 3 good reasons
for preferring Bamu:

Italian talent
GERMAN QUALITY
Slovakian production

ABOUT US

BAMU was founded in 2007 by **Giuseppe Ballotta**, sales manager and partner of Tecnocarp, a leading Italian medium-heavy industrial metalwork structure manufacturer and by **Peter Murgas**, collaborator of Slovak origin, who joined Tecnocarp in 1999.

BAMU was created to be the ideal partner for **Tecnocarp**, able to meet the new requirements introduced by **market globalization and company internationalization**; requirements relating to strong technological, but above all **economic competitiveness**. BAMU is able to provide a **cost-effective service**, while at the same time ensuring all the reliability and quality of Tecnocarp, characteristics which, since 1973, have enabled it to grow and establish itself as a leader in its field.

BAMU CERTIFICATIONS

Bamu has obtained all the most stringent certifications in the field of welding to ensure the constant quality of its processes and final products over time.

EN ISO 9001

production and technological innovation quality

EN ISO 3834-2

quality for the fusion welding of metallic materials

EN 1090-1:2009 +A1

conformity of steel and aluminium structures

EN 15085-2

quality of metal part welding processes

These certifications testify to Bamu's ability to deliver finished products of the highest European quality, in no way inferior to German standards

APPLICATIONS

Thanks to ongoing technological innovation and extensive expertise acquired over the years, BAMU has made flexibility one of its strong points, a service to be offered to a whole range of production sectors.

For many years now, BAMU has been a reliable partner for major manufacturers of:

MACHINE TOOLS

WOODWORKING MACHINERY

MARBLE WORKING MACHINERY

WIRE DRAWING MACHINES

DRILLING SYSTEMS

LIFTING SYSTEMS

PRESS BENDING SECTOR

EARTHMOVING SECTOR

PLANT ENGINEERING SECTOR

ENERGY SECTOR

RAILWAY SECTOR

SHIPBUILDING SECTOR
